

NUSHU

Walking is more than movement.

It is independence, confidence, and quality of life.

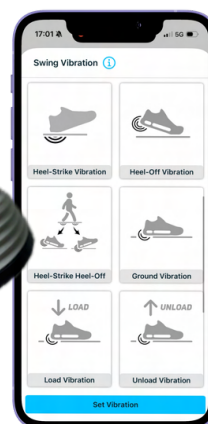

NUSHU is designed for anyone experiencing walking difficulties, balance concerns, or reduced confidence while walking, including those living with Parkinson's disease or other neurological conditions.

WHEN WALKING BECOMES DIFFICULT...

Meet *NUSHU*

Looks like an everyday shoe.

NUSHU is an AI-powered wearable smart-shoe system that integrates clinical-grade gait assessment, real-time vibrotactile feedback, and home-based use support into a continuous, data-driven care platform.

AI-POWERED

HOME USE

FDA LISTED

Walk with greater
confidence.

Personalized
walking support.

Support at home
and outdoors.

MORE THAN WALKING

Walking means...

Going shopping

Staying active and independent

Meeting friends

Connecting and enjoying life

Walking your dog

Daily routines that matter

Keeping up with your grandchildren

Being there for the moments that count

Feeling independent. Feeling like yourself

Living life on your terms
